GRUPPO BANCARIO CREDITO VALTELLINESE

At Gruppo Bancario Credito Valtellinese, our attention to the objectives of:

- ensuring strict accuracy and punctuality in the execution of jobs
- maintaining the highest quality of the service provided

have always been our highest priority!

The in-depth expertise of the supplier RES has enabled us to create a reference model of our objects and move to a controlled management of our production environment, while continuing to efficiently handle the presence of frequent changes required by the business needs of the Banks we serve.

The collaboration with RES on these issues began 20 years ago and has continued to produce good results within our mainframe environment. With this proven success, we plan to extend this way of working to our ever-increasing number of open system areas.

Viale Piero e Alberto Pirelli, 6
20126 Milano, Italy
